PARKS RECREATION TRAILS & NATURAL AREAS

TARGETED OUTREACH MEETING SUMMARY

Overview:

The Gresham Parks 2035 is conducting meetings with Spanish, Russian, and Ukrainian speaking residents to assess their park and recreation needs and priorities. Verde, the City of Gresham and MIG staff conducted two in-person meetings in May. The team will meet with these same groups again in September 2024 to discuss more specific recommendations for park and recreation facility improvements.

Format:

- Presentation given by MIG staff
- Break-out small group discussions to answer questions
- Dot sticker activity to rank facilities needed and top park activities
- Large group share-out and next steps

Baseline Discussion Questions:

1. How often do you visit one of the City's parks, recreation facilities, trails or natural areas and which places do you visit most often?
2. What are your favorite things to do at these facilities?
3. What is missing or lacking about these facilities that you wish were there?
4. Are there things that need to be improved or enhanced? If so, what are they?
5. Do you feel safe when using these facilities? If not, why not and what can the City do to make these facilities safer?
6. In general, what types of parks, recreation facilities, or trails that you most need or want to see more of in Gresham?
7. If the City does not have enough money to pay for all the things you would like to see, what are your one or two top priorities (e.g., play equipment, benches, trails, shelters for larger gatherings, community gardens, etc.)? [*Note: For this question, we'll use a "dot" exercise to identify your top three priorities. Please place dots next to the three types of activities and facilities on the photo boards that are most important to you*.]
8. Are any of these facilities you visit within walking distance of your home? If so, are there any barriers (e.g., busy roads, lack of sidewalks, etc.) that make it harder to walk to these facilities?
9. How can we continue to work with you and other community members to engage you in this planning process?
10. Is there anything else you would like to tell us?

Summary and Key Takeaways:

The community engagement sessions held on May 2nd and 4th, 2024, provided valuable insights into local residents' use and perceptions of parks in their area. The discussions highlighted the frequent visitation of parks like Main City, Red Sunset, Nadaka, and others, with some participants visiting parks 2-3 times a week or every weekend. Participants, predominantly Spanish-speaking, emphasized their preference for parks near home or work, and some noting that they did not know the names of many parks. Favorite activities included family/social gatherings, enjoying nature, exercise and playing sports, with a preference for places that offered amenities for children, recreational activities, and natural areas.

Key areas for improvement focused on increasing safety and improved facilities in parks. Participants expressed a strong need for better lighting, more benches, additional bathrooms with adequate supplies, and increased maintenance. There were also calls for specific amenities like enclosed dog areas, sports fields, play structures, and functional water stations. Concerns about safety were prominent, with suggestions for security measures such as police presence, security cameras, and ways to call for help. There was also a desire for parks to have better infrastructure, such as sidewalks, covered areas, and separate paths for pedestrians. To continue community engagement, participants mentioned holding more meetings and a need for more inclusive communication and follow ups on progress. They also suggested a variety of platforms, including social media, local newspapers, and the radio, to keep residents informed and involved in park planning and events.

ЦЕЛЕВЫЕ ВСТРЕЧИ – ВОПРОСЫ ДЛЯ ОБСУЖДЕНИЯ

ОБЗОР

Gresham Parks 2035 проводит встречи с жителями, говорящими на испанском, русском и украинском языках, чтобы оценить их потребности и приоритеты в парках и местах отдыха. Член группы Верде возьмет на себя ведущую роль в организации и содействии этим встречам в координации с городом Грешам и персоналом MIG. Команда проведет две встречи в апреле/мае. Команда снова встретится с этими же группами в сентябре 2024 года, чтобы обсудить более конкретные рекомендации по улучшению парков и мест отдыха. Верде подготовил сопутствующий план для этих встреч. Это вкратце все вопросы для участников дискуссии.

ОБСУЖДЕНИЕ ВОПРОСОВ

Ниже приводится список вопросов для обсуждения, которые мы будем использовать во время первой серии встреч.

Базовые вопросы

1. Как часто вы посещаете один из городских парков, мест отдыха, троп или природных территорий и какие места вы посещаете чаще всего?

   every weekend

2. Что вам больше всего нравится делать в этих местах?

   Be in the nature enjoying the view of a river

5/2/24 G. City Hall

(1) Visit parks 2-3 times a week, Nadaka, Roberts Lake Park, Rockwood Park
Playground areas around Gresham, Reynolds High School - go with grandchildren
Nadaka Park used to be my favorite, close to where I live, MAX nearby
Powell Butte, Spring Water Corridor, exploring trails

(2) Walking grandchildren playing, celebrate - family, church gatherings, family reunions
Events organized by community events - bird watching, nature, programming during the summer for kids.
Going to the park to relax, & enjoy nature & breathe fresh air

(3) Toilets supplies, bathrooms are not maintained, soap, water fountains are not turned on
better lighting, more light posts, brighter lights for safety & security
* Spring Water Corridor Trail feels unsafe - I used to go by myself but I don't feel comfortable. Barbeque areas - free to use, some should be reserved in advance, some should be first come first serve

(4) Playground amenities need maintainance - interactive toys/percussions are broken often
* More live music at the parks - symphonic bands, music that everyone can enjoy - better outreach / advertisements, schedule published - bulletin boards, posters, Russian Radio Spirit Radio 1040AM
Zumba in the park - Beaverton Parks have Zumba.

(5) My window got broken into, houseless people occupy park shelters - sense hopeless
maintain park facilities - homeless folks make messes, & the trash remains for months. More clean-up crews, that service the parks & the parks restrooms
Signs are often small, & illegible, many are located too close to the ground.
Bike lanes seperate from walking, limit dogs to designated areas - leashes, pick-up after dogs

(6) Free parks, good amount of parking, groups of benches for gathering in groups
modern playgrounds, like the ones @ Reynolds - recycled materials for the ground, safer for kids
"Bowl shaped" playground @ Nadaka, playgrounds that are aesthetically pleasing
Kids like to play in the sand.

(7) Benches are essential - elderly folks, disabled folks picnic tables, seating areas that can accomodate lots of people.

More parks should have free parking - Boston, Ox bow, Blue Lake, Rooster Rock

(8) Sidewalks have moss & plants

(9) Slavic community is large here - we want to be engaged.

Communication via: Email, facebook, Gresham newspaper, Radio

(10)

(3) Smaller parks don't have a lot to do, often just a field - we'd like to see more recreation for children + adults - activities like exercise (ie Cully Park), Volleyball, tennis, basket-ball, etc.

(5) Houseless folks living in Parks can make enjoying the parks difficult

Doesn't feel safe, it feels like a waste of money to buy nice things only to have them damaged

July 31, kids event @ Lents Park

5/2/24 G. CITY HALL

Favorite parks

- Trail near Powell-Springwater
- Like seeing parents + kids + security
  sometimes see people who are suspicious
- East Gresham Pk (x2)
- Red Sunset Park + Johnson Creek / S. Wtr Trail
  ↳ the duck park
- Main City Park -
- Want more lighted, secure parks
- Also tired of additiul taxes in Multnomah Co
- Tired of not getting what need for taxes
- Like parks w/ more trees / Nature Parks
- Park @ NE Hood Ave (Main City Park)
  + Red Sunset Park

~~Hh How~~

Favorite things to do

- Take kids to park + feel secure + relaxed
- Run and take kids
- Walk in + enjoy natural areas w/ kids

- Play w/ kids, basketball, soccer

Missing

- Covered areas - for activities when raining
- Gated/locked areas to prevent use @ night
- Public water stations - w/ precautions against contamination
- Prevention of homeless use
- Better seating
- Higher quality parks - lack of resources compared to Sandy, Clackamas
- Security
- Facilities for people w/ disabilities
- Restrooms (x3)
- Clean facilities
- Surfaces - not concrete, softer
- New facilities often quickly vandalized

How to Improve safety

- More people in parks
- Clean up hazardous things (eg, syringes)
- Prohibit smoking in parks
- Way for people to call Security/911 - buttons
- More lighting
- Many people can't drive
- Don't allow drug use in parks
- " " camping near trails

- No point in building new things it will be destroyed or vandalized
- 25 years ago, felt much safer
- Problems not being resolved
- Want more transparency about how/where $ being used - why building new library and not solving problems being discussed tonight

How to engage communicate?

- Respond to questions + comments from today tell us how we plan to address these issues
- For us to support process, need to know how we'll
- Projects city doing don't really show that we're listening
- Want to see our parks look + feel like parks in Happy Valley (safe + secure)

Other comments

- Use durable mat'ls for benches
- Provide reflective belts
- Cameras for safety

this is only a test; disregard

Anonymous
9/15/2025 06:21 AM

Nothing is missing. We don’t need to spend more money on making parks when you can’t even safely visit the ones we have. Parks should not be a priority until Gresham decides to make Gresham livable again.

Anonymous
9/15/2025 09:26 AM

The point of building new parks in neighborhoods that need them is a little vague. What defines "need"? I think ALL neighborhoods need parks. It is well known that cities with many parks are desirable and attractive to people looking for good places to live. Let's make Gresham that desirable and build more and more parks for residents.

Prioritize native plants and trees with an eye towards resilience as climate catastrophes worsens. Well chosen native plants tend to need less care than introduced species. They also are usually a better match for our native fauna and insects.

Anonymous

Too much fuel and overgrowth behind the homes on Gabbert Butte. Doug fir trees planted way to close together, poor management. Needs to be thinned out and fuel removed. Huge fire hazzard.

Anonymous
9/16/2025 05:33 PM

Appropriate size dog parks. Gresham dog parks are very undersized and creates a dangerous scenarios for many less confident dogs that can’t find the space to get away from other dogs. AKC standards are 5 acres.

I would prefer clean bathrooms and drinking water as well as dog poop bags availability instead of million dollar developments in parks.

Anonymous

Please develop SE neighborhood park on Barnes Road or swap it for Lind- Carpenter park. We have been waiting for 20 years for something to happen to make it usable. At least the Carpenter family

is dedicated to having a neighborhood park. The Gresham owned park is laughable.

Fully fence around parks, especially those with dog parks in them, to provide more safety for the surrounding neighborhoods. Install security cameras. Make sure you have enough staff to maintain current parks and enough funding secured and guaranteed to continue maintenance of any new parks before they are added. No pickleball courts!!!!

With the crime that has been occurring in Gresham parks, I think safety is more important than ever and it will be difficult to make people feel safe.

There are some undeveloped areas that are great as they are. Think the Gabbert Butte trails, Butler Creek, or how SW Community Park used to be. I would love to see a formal commitment to maintain or expand green spaces that are primarily composed of trees and dirt. Forest Park is an amazing asset to Portland. Powell Butte is an amazing asset to East County. 1000 Acres is an amazing asset to Troutdale. I would love a Gresham addition to this list.

Q4 Examples of community-wide parks projects:

Anonymous

We need more parks in east Gresham. We need large modern playgrounds. Pickleball courts. Covered areas. Paved trails. Disc golf courses. The park land on Salquist in SE Gresham needs to be utilized.

Anonymous
9/15/2025 09:26 AM

If you provided a list of community-wide parks to select that would be helpful. I suppose things like walking trails, trails for bicycles (because walking on trails with bikes can be dangerous), playgrounds, outdoor fitness equipment, etc. Even some natural areas.

Anonymous
9/15/2025 06:03 PM

Continuing to upgrade and improve existing parks features will encourage people to get outside, and will also help create a sense of ownership and pride, hopefully minimizing vandalism. Reserving spaces just for the critters (with maybe a nice path through it) will provide calm and beauty for those who go outside for that.

Keep our flagship "big parks" (Main City, Gradin) attractive to visitors for a wide variety of activities, both new & old. Examples of new: converting tennis courts to pickleball, basketball/futsal courts.

Anonymous 9/17/2025 10:49 AM	Build onto what we already have, using natural areas that connect from different parts of the city. Clear and safe pathways that can connect an area in southwest Gresham to an area in Northeast Gresham. These paths and connections can be used for nature hikes for schools, recreation, transportation, and environmental compliance for Stormwater, Natural Resources, etc.
Anonymous 9/17/2025 02:21 PM	Nature trails, native plantings.
Anonymous 9/17/2025 04:22 PM	Provide more safety and security to parks like Main City Park. There's frequently teens and young adults causing damage and treating/assaulting park goers, and far too many homeless.
Anonymous 9/18/2025 08:59 AM	Integrating native pollinator plants and restoring parks to their natural ecosystem of other plants that all work together to restore pollinator (and natural wildlife) niches. Continued tree care to ensure they are in top shape and won't become diseased and fall over (requires frequent checks)
Anonymous 9/18/2025 02:19 PM	Increased safety features; better/more restroom amenities; repaving areas where there are potholes, cracks, damage.
Anonymous 9/19/2025 03:48 PM	Main City could use some playground and ball-field love. Currently, the Japanese Garden is the jewel--would love to have the other amenities shine as bright.

I think by teaming up with Gresham Barlow School District, making the school playgrounds and areas a more community centric place can provide a valuable partnership between city government and the schools that can help expand what the city can offer the community and what the district can sustain. Why can't a neighborhood park also be a school park?

We often will go to parks in Sandy or troutdale as they have better playgrounds, trails, or features. We need to build more and revitalize most of Gresham parks.

Anonymous
9/15/2025 06:21 AM

Greshams city leaders have chosen greed over livability in Gresham. They are adding more people to an area that is already terribly maintained and policed. The choices to waste money on a new library when the old one was sufficient is a prime example. Until you can be responsible with the taxpayer money, you should not waste it on more parks people cannot even feel safe going to. I don’t know anyone who frequents parks in Gresham, especially with their kids.

Anonymous
9/15/2025 09:26 AM

Having many choices of parks to visit means people don't have to travel far to find one, meaning they will be used more often, enjoyed more often. Perhaps you can even get neighborhood groups to step up and help with maintenance and care.

Parks that provide play areas for all ages and ability levels would be amazing. Main city park is such a disappointment in that it is a

centerpiece for our city but the play structure is dated and serves only older children, not to mention is unshared and surrounded by mulch and asphalt.

Can we do some additional things to encourage birds and bees? Maybe such things as pollinator gardens?

Please try to limit development to a small play area for the kids and a nature trail. We have motorcycles now up and down the streets and its become a nuisance. We need a dog park on that area too especially since these horrible town-homes are being built

Anonymous
9/17/2025 04:22 PM

Leave SE community Park alone! Do not develop it! mow it. At max, pave a path. Remove the blackberries sprouting in the center. Add poop bag stations and a bench. If you insist on developing it, leave it for last. Absolutely no community garden! You must put a fence around the outside to protect kids from dogs that are loose from their owners. People will not follow the rules, they already don't.

I think that all city parks should be well-maintained and preserved, prioritizing sustainability, cleanliness, accessibility, and safety. In the parks I frequent, trash and vandalism are problems- While the people who commit these acts are responsible and should be held accountable, the city should step in to mitigate with regular cleanups and outreach to homeless individuals (and concurrently removal of

camps, which aren't safe for anyone). Overall, I appreciate the work that the city does in keeping our parks as clean, safe, and accessible as possible (our parks aren't disaster sites, but I do see them as vulnerable).

Gresham Butte does not have a neighborhood park. Also I'm filling this out in the company of 2 people with combined 16 years of education in parks and recreation experience specializing in research science and they are disappointed in the quality of this survey

There is a large plot of land currently for sale on the SE corner of 162nd Ave and NE Halsey St that could be a perfect spot for a decently large off leash dog park for the area.

Anonymous
9/29/2025 10:04 PM

Just that the parks are great but I really hope you can update the equipment at main city park for the kids

Anonymous
9/30/2025 01:43 PM

Please don't build any more parks if the City is not going to fund the positions to maintain them. Invest in streamlining the park we have to make maintenance easier. Make sure the staff have the equipment they need to do the job efficiently.

GRESHAM PARKS 2035 FINAL PLAN LISTENING SESSIONS

INTRODUCTION

As the Gresham Parks 2035 entered the final phase of the Parks System Plan project, Parks staff scheduled a series of drop-in listening sessions that were geographically dispersed and scheduled at various times during the day in-person and virtually, to answer any questions on the proposed final plan and offer an opportunity for the community to learn more about the plan. Here is a summary of what staff heard from residents related to a specific park as well as themes that emerged for the park system as a whole.

PARK-SPECIFIC COMMENTS

These comments focused on individual parks, neighborhood concerns, or site-specific improvements.

Bella Vista Park

- Strong desire to preserve the park's neighborhood character.
- Residents described the park as:
  - Peaceful
  - Quiet
  - A "neighborhood living room"
  - Well maintained
- Concerns included:
  - Increased noise from additional activities.
  - Potential transition from a neighborhood park to a community park.
  - Additional parking impacts.
  - Long-term maintenance capacity.
  - Mixed opinions regarding additional restrooms.
  - Appreciation that the proposed cell tower was not pursued.

Southeast Neighborhood Park / Lind Carpenter Property

- Need for tree pruning and vegetation management.
- Questions about allowing volunteer work parties.
- Concerns about vegetation overhanging Barnes Road.
- Development pressure in southeast Gresham.
- Desire for additional neighborhood park amenities and playgrounds.

Southwest Community Park

- Strong support for preserving the property as parkland instead of residential development.
- Neighborhood traffic and pedestrian safety concerns, particularly:
  - Powell Boulevard and 182nd Avenue intersection.
  - Proposed park entrance from 5th Street.
  - Need for a transportation traffic impact study.
  - Speeding on neighborhood streets.
- Requests to prioritize neighborhood safety in park planning.
- Interest in maintaining natural character while providing:
  - Restrooms
  - Dog park
  - Sustainable trail materials
- Concerns about electric bike use.
- Interest in dedicated project communication separate from the System Plan.

Pat Pfeifer Park

- Request for basketball facilities.
